

Communication – international press release

1st September 2017

Effective 1 September 2017, DIASource ImmunoAssays SA, the Belgian-based company specializing in development, sales and distribution of clinical diagnostics products, acquired the full assets of Viro-Immun Diagnostics GmbH, the German company specialized since 30 years in the development and manufacture of laboratory diagnostics for medical diagnosis of infectious and autoimmune diseases.

Viro-Immun Diagnostics GmbH, based in Oberursel, near Frankfurt, had been in insolvency since May 2017. Business operations in the last months continued under the insolvency administrator, Mrs. Kappel-Gnirs from HWW (Hermann Wienberg Wilhelm).

With this transaction, DIASource acquires the Viro-Immun brand name and all ELISA and IFA products, as well as full inventory and infrastructure.

The company and brand Viro-Immun has a strong reputation for its complete portfolio of high quality assays in infectious and autoimmune diseases, spearheaded by the ToRCH panel with parameters such as Toxoplasma, Rubella, Herpes.

The Viro-Immun products will continue to be manufactured and sold as a separate product line under the DIASource Viro-Immun brand. All Viro-Immun customers will continue to be serviced by DIASource and benefit from its established customer and technical support services. Ex-Viro-Immun employees will continue to be staffed in Oberursel as part of the legal branch DIASource Germany.

This acquisition fits in with DIASource's strategy to act as a consolidator in its core business of manual kits and open automation. With this acquisition DIASource strengthens and extends its established portfolio of proven best-in-class endocrinology and Vitamin D products.
