DIAsource has implemented an emergency plan regarding Covid-19

DIAsource ImmunoAssays would like to update you on the current **Coronavirus/COVID-19 situation**, in relation to DIAsource's supply of products to you as a customer.

Yesterday, the Belgian government decided to initiate a lockdown, which means that schools, universities and all non-health related public functions will be closed as of Monday, March 16 2020.

Private companies, like DIAsource ImmunoAssays, are asked to take all necessary precautions to prevent spread of the virus, however make sure that supply of products is as un-affected as possible.

As a result, DIAsource has implemented **an emergency plan, which will enable us to continue the supply of our products to you, throughout this crisis.**

We will do our utmost to make sure that you receive your planned shipments in time, and we do not foresee that this will affect our supply to you, in any way. **However, DIAsource will continue to monitor the situation and keep you informed of the development.**

On the other hand, if you need to reduce your usual order quantities, or if your country is blocking the deliveries from Belgium, please let us know as soon as possible in order to allow us to adapt the production schedule.

Please do not hesitate to [contact us](#) if you have any questions regarding the above.

Contact us: customer.service@diasource.be - tel. [+32 10 84 99 00](tel:+3210849900)

With best regards,

Béatrice de Borman
